INFORMATION ABOUT THE SCHOOL

APEEJAY SCHOOL SAKET – AN INTRODUCTION

Apeejay School, Saket completed twenty five years of excellence in the field of education in the year 2013. The school is proud to have gained the reputation of a school that is working towards achieving higher pinnacles of excellence both in scholastic and co-scholastic activities with a resolve to realize the motto of the school- Soaring High Is My Nature.

The school was ranked seventh amongst 250 top schools across the country by the “Education World” magazine in an intensely competitive ranking survey undertaken by IMRB International, one of the India’s most respected pioneering research firms that took into account numerous holistic parameters associated with school education. The survey was conducted in the year 2007, based on the criteria of academic reputation, co-curricular education, honesty and integrity of the school management. The school was awarded a commendable rating for the same.

In 2010, the school was selected for a highly competitive ‘HP Innovations in Education- 2009 Grant’. The grant was valued at more than US$ 95,000 and was utilized to further develop the HP technology and professional development of the faculty.

The school has also been granted a lead school status for South Delhi by the Tony Blair Foundation for the programme Face to Faith. The school has also been awarded the ‘Gold Award’ by the Tony Blair Faith Foundation for its efforts and involvement to promote respect for cultural diversity through the Face to faith programme.

Apeejay School, Saket, has been conferred the ‘Best Education Initiative in Schools Award’ at the e-India Awards. The event was supported by the Department of Science and Technology, Union Ministry of Commerce, Union Ministry of Urban Development and the Department of IT and Communication, Government of India.
From the last two years the school has been placed in the “Leaders” category amongst the top ten schools of South East zone by the ‘Times of India’ one of the leading Newspapers. The students of the middle school won the Best Research Award for ‘Anweshan- 2015 organised by ITIHAAS an organization, which promotes heritage education.

The school is one of the pioneer schools in launching of its online learning management system-MOODLE (Modular Object-Oriented Dynamic Learning Environment) to enable the parents to get all the information related to scholastic and co-scholastic activities, homework and assignments, just at the click of a button. It is also a great step in the school’s continued initiative towards a green environment by reducing paper consumption.

Curriculum

The dynamic curriculum of the school is continuously enriched and evolved. In Pre-primary and class I, the school has introduced Thematic curriculum to make learning more meaningful and joyful. Emphasis is laid on activity based learning at all levels. At the middle and senior school level, the school follows the curriculum and guidelines prescribed by the Central Board of Senior Secondary School. The capacity building programmes for students woven in the school curriculum give them an impetus to discover themselves. There is a culture of research at all levels- right from primary to senior secondary level, encouraging students to explore, experiment and innovate.

The school has a very well knitted value education programme to raise ethical and socially responsible children. To achieve this we are following different programmes - “Awakened Citizen Program” by Ramakrishna Mission, Life skills and leadership programme by the Global Education Leadership Foundation and Adolescent Education Programme, these are an integral part of the curriculum.

International Dimension in the Curriculum

Our students every year work extensively on research based multidisciplinary projects in collaboration with schools across the world and present their findings in the form of exhibitions and symposia.

The school has received International School Award for the second time and has been accredited for outstanding development of the International Dimension in the curriculum.

The school has also collaborated with the Korean Cultural Centre, India to provide an exposure to students to Korean culture and to promote friendly relations existing between two countries.

INFRASTRUCTURAL FACILITIES

Well Equipped Laboratories:

With the development in the field of science and technology, we facilitate our students with well-equipped laboratories for Biology, Physics, Chemistry, Mathematics and Home Science. Children have an easy access to these facilities under the supervision and expert guidance of the teachers.
Library:

The school library is a vast reservoir of books. A wide range of fiction, poetry, prose, philosophical books, magazines and newspapers are available for readers. The school is also the member of the British Council Library and books are issued from BCL on a regular basis.

Subject Specific Room:

The environs of the classroom play a very significant role in enhancing the teaching-learning process. The school follows the system of subject specific rooms for students of classes VI to VIII. These classrooms act as a catalyst in the learning of the subject related concepts. They provide a stimulating environment with their subject related attractive displays, teaching and the audio-visual aids.

Computer Education:

The school has well equipped Computer Laboratories with the latest technology based multimedia machines for providing hands on experience to the students from Nursery to class XII. Computer Aided Learning (CAL) is integrated to enrich the teaching learning process. The internet facility enables the students to draw the latest information from global computer networks. Robotics as an activity is a recent introduction in school. This enhances the creativity, imagination, innovation, problem solving skills and team spirit amongst the students along with sharpening their programming skills. To further enhance the understanding and experiential learning of the students, classrooms are equipped with smart boards at the primary, middle and senior level.

Science Park:

It is a cluster of interactive play models installed at one place. These models are based on scientific principles. The concept of the park is to teach science in an informal way with exhibits that cover many topics.

Faculty:

The school has a team of highly qualified teaching staff which not only gives academic knowledge but also provides a child friendly environment to the students for developing a holistic personality.
