**M E S S A G E**

I am pleased to note that Apeejay School of Architecture & Planning, Greater Noida is organizing an event on 22nd -23rd February 2019 to celebrate **“Apeejay Festival of Ideas by Ignited Minds”** on the occasion of fifty years of establishment of the institute.

These activities provide the platform and exposure for the participants to understand and solve various problems related to environment and to aware the recent developments. The participants also learn dealing with peer group and develop social networking and technical skills through interactions which are important components of learning process. I believe that the efforts of the organizing committee will succeed and this event will turn out to be a great learning experience for them.

I congratulate the organizers and the team for organizing the event and my best wishes for the success.
