How do you recall your life at ASM?

ASM has talented and very knowledgeable faculty. Faculty members are very supportive and enthusiastic. They are generally helpful, sympathetic and considerate.

Will you like to share your fond memories of the institute?

I got great friends from ASM, even greater bond amongst classmates. Relationships between students and faculty members were quite fulfilling. I participated in various activities to make myself more confident and fearless. The events held in our college were full of excitement and learning. This was a great accomplishment that I will cherish throughout my life. However, campus placement was the most exciting moment during my stay on the ASM campus.

How did ASM help you in your personal as well as professional life?

I received holistic development at ASM. My learning experience had been fun-filled and exciting. I got the necessary skills, knowledge and abilities to survive in the corporate world. ASM provided a transitional shift in my life and career. I learnt to learn and take challenges. I got the confidence of making decisions on my own as a result of my education and training at ASM.

ASM has talented and very knowledgeable faculty that not only provide the basic education to the students but also mentor them for overall development as a professional manager and leader. If I say that it is one the best rocking experience of my life in ASM, you should take it on face value. I really mean it.
