## **Message**

**Dear Parents**

The most cherished time of the session is on its way to bring smile on children's face. Let's welcome to the treasured and rejuvenating summer break.

The concept of summer vacation has transformed the holiday period into a learning and fun-filled time for children. It provides a break from the academic schedule and a chance to adopt an innovative skill. There is plethora of options to choose from dance, art and craft to gardening, swimming, skating or karate classes; the choice is all yours. The summer break keeps the schedule a bit relaxing but it needs to be utilized judiciously. The scholastic and integrated, creative school activities and projects are designed to help in the holistic development of the child. The novel ideas to accomplish the task will certainly broaden their outlook.

The children should be guided to follow time schedule to get the optimum utility of summer break. They need to be given utmost care and protection at home. The quality time spent with kids will inculcate family ethics and affection in them. Instruct the child to be more vigilant while spending time in outdoor activities. Refrain from talking with the strangers and sharing personal details with them. Guide the children to adopt healthy eating habits. Lots of fresh fruits, juice and liquids will ward off the heating effect of the season. Take out some time for prayer, yoga and meditation as it is required for the purification of body and mind. The balance of accomplishing academic assignment and nurturing an innovative skill will surely make this summer vacation a memorable time for the children. The quality time and the tips to ensure the holistic personality development should be a constant parental concern as these moments make an indelible imprint on child's mind and soul.

May God protect my children from every evil and bless them with sound health, bundle of joyful moments. I hope to see them ever smiling after summer break.

**Blessings and regards!**
