

Discussing the healthy way forward

The city played host to over 200 leading doctors, for a panel discussion organised by **Rainbow IVF, Walter Bushnell Healthcare Foundation** which is lead by director **Nishant Berli**a and **Apeejay Stya University**, lead by its co-founder and chancellor **Sushma Paul Berli**a.

An informative panel discussion called **Womb to Tomb** was moderated by Prof. **Jaideep Malhotra**, president of **ASPIRE** and MD of

ART-Rainbow-IVF and **Dr Keshav Malhotra** M.C.E, that highlighted the role of estrogen in human reproduction. The discussion was followed by a question answer round on estrogen- the hormone of life. Prominent attendees included, panelists **Prof. Padamshree Alka Kriplani** of **AIIMS** among other doctors, scientists and research scholars.

Walter Bushnell Healthcare Foundation – a centre of excellence

at the **Apeejay Stya University**, promotes awareness of healthcare issues among the community, furthering the frontiers of medical research and innovation in healthcare. The foundation and university also organise conferences, symposia and lectures for the benefit of all those involved in the health sector to highlight and deliberate on emerging trends and findings related to healthcare.
