

APEEJAY SCHOOL, PITAMPURA

PRE-PRIMARY DEPARTMENT

HOLIDAY HOMEWORK

NURSERY

Session-2018-19

Enjoy the sun that is now out and cherish it so that it can move eternally into your heart.

Dear Parent,

Holidays are a great time to spend quality time with your child, so, practice doing things that he/she likes. We have chosen certain activities which will help in strengthening the bond between you and your child and reinforce the facts and concepts which he/she learns at Apeejay, at home as well. We are sure you will enjoy these activities with your child during the summer break.

1. Fun filled activities

- ❖ To enhance the fine and gross motor skills of your ward, engage him/her in the activities like swimming, dancing, music, zipping and unzipping their bags, clothes etc.,squeezing bath sponge, watering the plants using spray bottles, buttoning their shirts, tying their shoe laces etc.
- ❖ Observation games-
To let the child go around the house and learn the names of the objects in different rooms.
- ❖ Treasure Hunt- hide small objects such as blocks or toys around the house. Send your child for treasure hunt to find these objects and ask him/her to name them as well.
- ❖ Play- Eye Spy–spend some time with your child to play Eye Spy. For e.g. “I spy with my eyes-lollipop” and ask your child to find objects with the given letter “L”. The game can go on like that.
- ❖ Enjoy story time- make story time a regular part of your routine with your child. Choose books with short stories and colourful illustrations. Encourage him/her to retell the story in his/her own words using the pictures given in the books.
- ❖ Assist your ward in learning a short story(4-5 lines) for story telling session.
- ❖ Speak in small and simple sentences while conversing with your child in English.

2. MATHS

Demonstrate the pre number concepts using live objects for example:-

- ❖ Sky scraper/ TV tower-standing line
- ❖ Metro train-sleeping line
- ❖ Pizza –circle
- ❖ Sandwich-triangle

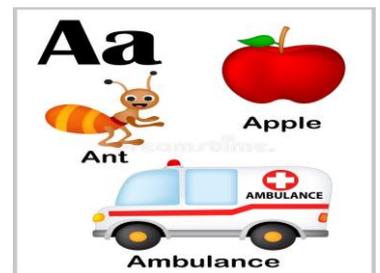

Hands at work- flameless cooking (for example-sandwich making)

Capture the moment and make a video. Upload the same on youtube and send the link to the class teacher.

3. ENGLISH

Assist your ward in making Picture Chart of the letter ___ using half Ivory Sheet. The letter should be supported by an outline (coloured by the child) of pictures beginning with the letter assigned. Example is given below-

- ❖ Paste black cello tape for the border on all the 4 sides of the sheet.
- ❖ Write the name of the picture

4. ENVIRONMENTAL STUDIES

You can make a difference by planting a plant with your child. Nurture it, observe its growth every weekend by clicking photographs and pasting it on A-4 size pastel sheet.

The child will be allowed to share his/her experience with the classmates by telling about his/her plant (name, part, shape, size, colour etc)

Important Note: -

1. The holiday home work should be done with the involvement of your ward.
2. The work should be completed and submitted by the 9th July 2018.
